Installation Instructions

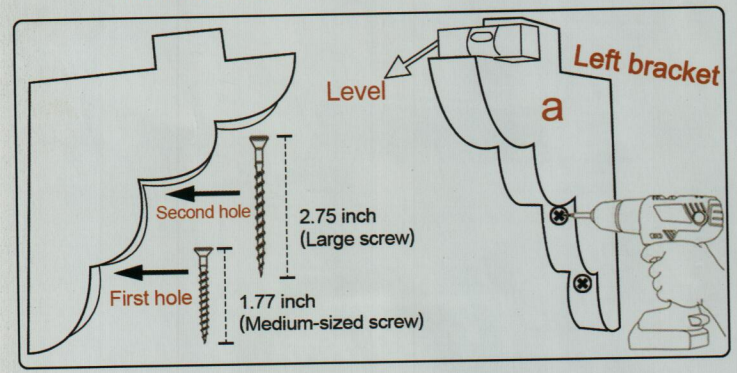

QsQueen

Installation Instructions

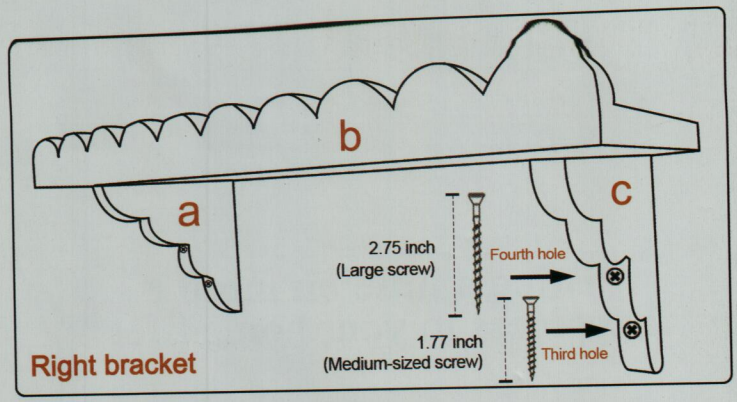

Step 1 Depending on your wall type, choose whether or not to use glue plugs.

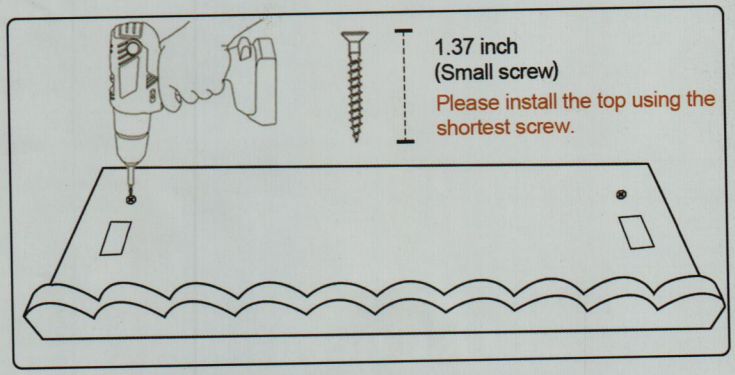

※ If using a rubber stopper, follow Step 2 in the same way mark the holes with screws, drill, and insert the stopper.

Step 2 Start by installing the bracket on one side. The bracket is not left- or right-specific.

Step 3 Assemble "a" and "b" first, then connect "c" to "b", and finish by installing the screws on "c".

Step 4 Choose the smallest screw to fix the top.
