XBOX 360 KINECT

WARNING Before playing this game, read the Xbox 360® console, Xbox 360 Kinect® Sensor, and accessory manuals for important safety and health information. www.xbox.com/support.

Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause "photosensitive epileptic seizures" while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

INTRODUCTION

Welcome to Just Dance® 2014! Invite your friends, have fun, and dance to the choreography!

THE GAME

The goal of the game is to dance as closely in rhythm as possible with the dancer(s) on screen. The flow of your body movements will be sensed by the Xbox 360 Kinect Sensor and compared with those of professional dancers in order to evaluate your performance precisely. The amount of energy you put in is also detected and affects your score, so give it your all!

Basics

- Make sure that you have enough space to dance in.
- You can dance in two lines if you do not have enough room to stand side by side.
- Always be aware of your surroundings to avoid accidentally hitting objects.
- Follow the on-screen dancer as if it were your reflection in a mirror.
- Copy the dancer's movements as closely as possible – upper and lower body.
- Follow the dancer, follow the rhythm, and loosen up!
- When you're more advanced and have learned the choreography, the pictograms will help you anticipate the step changes.
- Using the Kinect microphone, you can also sing along to gain a Mojo bonus!

Navigating the Menus

To dance and navigate the menus, all you need is a Kinect Sensor. First, face the Kinect Sensor. To control the menu, or take control of the menu, a player has to raise one of their hands.

Hand

Your hand is represented on screen as a hand cursor; you can switch hands at any time by simply lowering your current hand and raising the hand you wish to use.

Hover and Hold

To activate a button, you must move the hand cursor over the button, and then hold your hand over it until the selection circle is full. This is a successful press.

Score System

Dance Moves

For each movement, the system evaluates your performance in terms of rhythm and quality of execution. Your score feedback indicates how good you are.

FAIL: You've missed something.

OK: Not bad. Now try to synchronize better with the dance.

GOOD: Nice move! Increase your energy and stay in rhythm with the dancer.

PERFECT: Awesome! There is nothing more to teach you. A dancer is born!

Gold Moves

Some moves are more than just moves – they are Gold Moves. You will recognize them by the golden pictogram and special effects around the dancer. Performing a Gold Move earns you a lot of points.

Stars

Stars indicate your performance over the course of a song. While you're playing, the interface above your name shows how many stars you have.

Style

The style comment in the score recap gives you advanced feedback on your performance.

Energetic: Not only are you precise, your moves are powerful!

Smooth: Your moves are delicately accurate!

Wild: You don't really follow the moves, but you give everything you have.

Cute: You are free and graceful, like a little bird dancing.

Great Starter: You scored well at the start of the song, a little less toward the end.

Great Finisher: After a difficult start, you scored much better at the end!

Twins: You and another player do well on the same moves, and fail the same moves...

Exhausted: The end of your performance was not quite as energetic as the beginning.

Creative: You're so inventive. Nothing else can describe you.

Agitated: Keep calm and just dance!

Accurate: You follow the song to the beat!

Mojo

Mojo is the money of Just Dance: it allows you to buy new Choreographies and new Avatars in the game.

How to Gain Mojo?

You can gain Mojo in many ways:

Stars: At the end of a song, you gain one Mojo point for each star.

Karaoke: Playing Karaoke during a song will make you gain additional Mojo.

Dance with Friends: Invite your friends to dance with you! More people dancing means more stars, which means more Mojo!

Be curious! Explore! Become an expert dancer!

Try new content, unlock alternative dances, and win stars – you'll find other ways to gain Mojo and be rewarded!

Spending Mojo

New Dances: You can buy new Choreographies and Alternative Dances on the Song Page, and in the Shop.

New Avatars: You can buy new Avatars with Mojo with the Dancer Card.

Dancer Card

Use your Dancer Card to track your progress and record your Just Dance experience!

The Dancer Card shows your stats and personal progress: the most common style, the three most played songs, and average stars.

Hi-Scores

You can access the Leaderboard from the Mode selection screen.

For each dance, you can see the highest scores for it. Try to improve your score every time you play!

DANCE TYPES

Classic

The Classic is the original choreography in pure Just Dance style.

There can be up to four dance coaches on the screen and up to four players can dance at the same time!

Battle

In Battle, two songs go up against one another. Solo players can compete against the in-game dancers. If there are two players, you can compete against one another. Finally, if there are three or four players, you can team up and compete against another team.

The player or team winning a round makes the opposing player or team dance to their music! A round ends when the countdown is over. Whoever wins three rounds wins the battle!

Mash-Ups

Dancers from all songs team up to create a new mash-up. Pay attention: you may even notice that several dancers from previous Just Dance games make an appearance! Additionally, Sweat Mash-Ups are focused on fitness moves.

Alternative Dances

Do you want to have a new game experience? Alternative Dances allow you to rediscover a song with brand-new choreography. Improve your skill with a more difficult choreography – try the Sweat version if you like fitness training, and experiment with new ways to dance to your favorite songs!

On Stage

One player will be the Performer and take the lead on stage. Other players will be their dance crew.

When you play On Stage dance, we encourage you to sing and dance at the same time! Do you have what it takes to rock the stage?

Just Sweat Mode

If you're looking for a dance workout, you're in the right place. Just Sweat uses custom choreographed workout dances, combined with song dances from the main game!

When you dance in Just Sweat Mode, a special interface will show you how long you have been working out and how many calories you have burned.

You can personalize your program in Just Sweat Mode:

Free Mode

When you activate this mode, you can play any song from Just Dance 2014 in Just Sweat Mode one by one, for as long as you want. A Calorie Counter and a Timer will be displayed during each dance to help you track all your efforts.
