WARNINGS:

- Looking at or near the sun will cause immediate and irreversible damage to your eyes. ***DO NOT*** use Big Vision™ to look at or near the sun.
- ***DO NOT*** walk around while wearing Big Vision™.
- ***DO NOT*** drive or operate a vehicle while wearing Big Vision™.
- ***DO NOT*** use solvents or alcohols for cleaning Big Vision™.

CARE AND CLEANING:

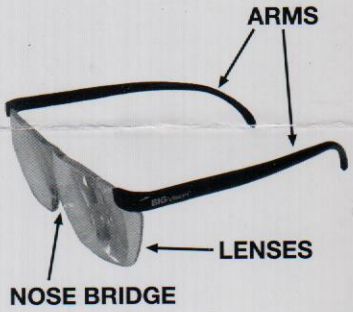

To remove light dirt and fingerprints, use the drawstring cleaning pouch (included) or a soft optical cleaning cloth. For very dirty lenses, use water or a neutral detergent to wash them. ***DO NOT*** use heavy force to clean lenses as this may cause scratching.

BIG Vision™

INSTRUCTIONS:

Congratulations on the purchase of Big Vision™, the Magnifying Eyewear that lets you see things Bigger...Instantly! Big Vision™ Magnifying Eyewear uses 2X magnification to instantly enlarge objects, while reducing distortion and eye strain. With 120 degrees of enhanced magnification, you will be able to see objects bigger, wider and more clearly while keeping your hands free.

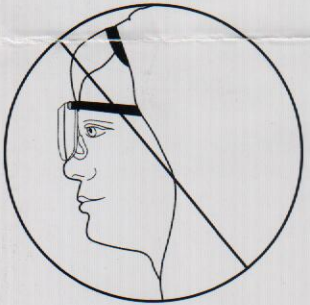

Scanned + Archived By:
FindMyManual.org

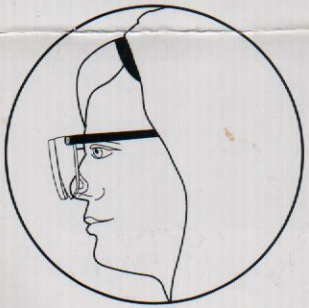

How It Works:

Big Vision™ can be worn alone or over prescription eyeglasses, contact lenses, sunglasses, readers or other corrective lenses. Big Vision™ should be worn near the tip of your nose, **NOT** in the same position you would wear normal glasses.

WRONG WAY

RIGHT WAY

Wearing Over Eyeglasses:

When wearing over prescription glasses or sunglasses, leave space between Big Vision™ and your other glasses to find the best focal length for you.

Finding The Focal Length:

Hold an object about 12 – 16 inches away from Big Vision™.

Note:

- Wearing Big Vision™ will not help your eyesight. It is best to consult an Optician or Optometrist.
