⚠ WARNING: PHOTOSENSITIVITY/EPILEPSY/SEIZURES

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- eye or muscle twitches
- disorientation
- any involuntary movement
- altered vision
- loss of awareness
- seizures
- or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation®3 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

NOTICE:

Use caution when using the DUALSHOCK®3 wireless controller motion sensor function. When using the DUALSHOCK®3 wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PS3™ system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PS3™ FORMAT DISC:

- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

PlayStation®3 system

Starting a game: Before use, carefully read the instructions supplied with the PS3™ computer entertainment system. The documentation contains information on setting up and using your system as well as important safety information.

Check that the MAIN POWER switch (located on the system rear) is turned on. Insert the NASCAR®: The Game 2011 disc with the label facing up into the disc slot. Select the icon for the software title under [Game] in the PS3™ system's home menu, and then press the  button. Refer to this manual for information on using the software.

Quitting a game: During gameplay, press and hold down the PS button on the wireless controller for at least 2 seconds. Then select "Quit Game" from the screen that is displayed.

Hint To remove a disc, touch the eject button after quitting the game.

Trophies: Earn, compare and share trophies that you earn by making specific in-game accomplishments. Trophies access requires a PlayStation®Network account.

INTRODUCTION

Start your engines! Prepare to take on the legends of the NASCAR Sprint Cup Series™ for a chance to be the best. You'll need to employ cunning strategy and white knuckle driving to make it into The Chase for the NASCAR Sprint Cup™ and go on to becoming the series champion.

THE GAME SCREEN

NASCAR® Experience Points (NXP): NXP in NASCAR® the Game 2011™ drives your player rank and unlocks exclusive rewards; from driver paint schemes to NASCAR Pins. Earn NXP by drafting, passing opponents, leading laps and finishing in the top placements.

Proximity Radar: The Proximity Radar shows you in the center and all other cars as they approach from behind and from either side. The proximity radar can be used tactically in a race to block and make precision passes. Your rival is shown on the radar as a red car.

Draft Indicator: The Draft Indicator is displayed when you are within the draft wake of another car. As you increase your car's momentum, the draft indicator rises and you earn more NXP. When it reaches the red area, it's time to slingshot past. Drafting also reduces drag and conserves fuel.

Brake Indicator: The Brake Indicator is displayed when you are approaching a turn too fast or at an incorrect angle and need to slow down or brake to avoid hitting a barrier.

Position Ticker: The Positions Ticker shows the distance from the closest car in front and behind you. You can also toggle the ticker to display a real-time running order in the race.

Individual items on your HUD can be turned on and off in the Pause Menu.

CONTROLS

The majority of inputs on the controller can be mapped to alternate functions, allowing you to have a fully customized racing experience. Controllers and supported racing wheels can be customized in the game's Options Menu.

GAME MODES

Career Mode: This is your NASCAR® career, 36 races in the NASCAR Sprint Cup Series™. With high finishes and race wins you can make "The Chase" part of the season, the final 10 races. Finish The Chase for the NASCAR Sprint Cup™ with the most points and you will be considered a NASCAR® legend!

Race Now: Race on any of the tracks and configure the race to your own style.

Eliminator: After the first lap the driver running at the back is eliminated. The race continues until you are eliminated or are the last car left. Can you survive until the end?

Invitational Events: Each Invitational Event allows you to compete in unique modes with varied objectives and strategies to winning. Invitational Events include Legend Challenge, Gauntlet, Championship Showdown and Solo Thunder Modes.

Track Testing: Lay down lap times, test out your tuning tweaks, and practice at any track. Complete laps and then review your performance and sector times in the Session Summary, accessible via the Pause Menu.

Practice: In the Career Mode menu you can track test alongside the real NASCAR Sprint Cup Series™ drivers before the big race.

MULTIPLAYER

Online Multiplayer: Compete online in multiplayer races with up to 16 drivers on the track. NASCAR® The Game 2011™ offers a variety of game modes including private races, custom races and the unique leaderboard event.

Leaderboard Challenge: Each player's total time in this race is analyzed and added to a specific leaderboard. This race tests you to set top lap times consistently and in a real race scenario.

Split Screen: Race against a field of competitive NASCAR® drivers in 2-person split screen action. You can race with a friend in one-off races or in Eliminator events.

Skill Rating: All players have an online Skill Rating which displays in the leaderboards, lobbies, and results table after an online race. You can raise your Skill Rating by finishing high in online races.

TIPS

Rewind: In NASCAR® the Game 2011™ you can rewind time in the race to replay a specific moment and retry. Don't lose out on a 400 lap race just because you crashed - rewind and try again. You have limited rewinds for each race.

Car Tuning: Select the Tuning option from the Garage to modify your car's handling and create personal tuning setups. Quick tune your car in the Basic Tuning area or jump into Advanced Tuning to tweak every aspect of the car.

Custom Paint Schemes: Customize your car with a new paint color, sponsor logos, and custom decals. Style your car in the Design Car menu in the Garage. The sky is the limit on what you can create!

Celebration Mode: After winning the race you can celebrate like a real NASCAR® driver! Perform burnouts and donuts to earn bonus NXP.

NASCAR® Pins: NASCAR Pins are collected for competing in Invitational Events and ranking up. Assign a NASCAR Pin to your driver for others to see in online races and lobbies. A range of starter NASCAR Pins are unlocked at the start.

Race Photos: Race Photos can be taken mid-race via the Pause Menu. Saved photos are held in the Race Media area in the garage.

Leaderboards: View your friends' and your own track times on the leaderboards, alongside the world's best NASCAR® The Game 2011™ drivers.
