

Testing the Collar

1. With the bark collar charging, press and hold the on/off button.
2. Continue to hold the on/off button while unplugging the bark collar from the charger.
3. The bark collar will flash 5 times to indicate the start of the test.
4. Release the on/off button before the end of the 5 flashes.
5. The bark collar is now in test mode. It will start to cycle through all 15 levels of correction.
6. It will flash once for each level of correction then provide the correction.
7. After level 15 it will turn off.
8. The test can be stopped at any time by pressing the on/off button.

Regular Maintenance

- Check Contact Points for tightness weekly.
- Clean Contact Points with a damp cloth weekly.
- Check your dog's neck for irritation and wash neck weekly.

Terms of Use and Limitation of Liability

1. **Terms of Use**
This Product is offered to you conditioned upon your acceptance without modification of the terms, conditions and notices contained herein. Usage of this Product implies acceptance of all such terms, conditions, and notices.
2. **Proper Use**
This Product is designed for use with pets where training is desired. The specific temperament of your pet may not work with this Product. If you are unsure whether this is appropriate for your pet, please consult your veterinarian or certified trainer.
3. **No Unlawful or Prohibited Use**
This Product is designed for use with pets only. This pet training device is not intended to harm, injure or provoke. Using this Product in a way that is not intended could result in violation of Federal, State or local laws.
4. **Limitation of Liability**
In no event shall Radio Systems Corporation be liable for any direct, indirect, punitive, incidental, special or consequential damages, or any damages whatsoever arising out of or connected with the use or misuse of this Product. Buyer assumes all risks and liability from the use of this Product.
5. **Modification of Terms and Conditions**
Radio Systems Corporation reserves the right to change the terms, conditions and notices under which this Product is offered.

Warranty

One Year Non-Transferrable Limited Warranty

This Product has the benefit of a limited manufacturer's warranty. Complete details of the warranty applicable to this Product and its terms can be found at premierpet.com.

Compliance

FCC

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a specific installation. If interference does occur to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult customer care, the dealer, or an experienced radio/TV technician for help.

CAUTION: Modification or changes to this equipment not expressly approved by Radio Systems Corporation may void the user's authority to operate the equipment.

Important Safety Information

Explanation of Attention Words and Symbols used in this guide

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

WARNING

WARNING, indicates a hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION, used with the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

CAUTION

CAUTION, used without the safety alert symbol, indicates a hazardous situation which, if not avoided, could result in harm to your pet.

WARNING

- Do not use this product if your dog is prone to aggressive behavior. Aggressive dogs can cause severe injury and even death to their owner and others. If you are unsure whether this product is appropriate for your dog, please consult your veterinarian or a certified trainer.
- This device contains Lithium-Ion (Li-Ion) batteries; never incinerate, puncture, deform, short-circuit, or charge with an inappropriate charger. Fire, explosion, property damage, or bodily harm may occur if this warning is not followed

CAUTION

- This product is not a toy. Keep it away from the reach of children. Use it only as a bark deterrent.

CAUTION

- Proper fit of the collar is important. A collar worn for too long or made too tight on the pet's neck may cause skin damage ranging from redness to pressure ulcers. This condition is commonly known as bed sores.
- Avoid leaving the collar on a pet for more than 12 hours per day.
- When possible reposition the collar on the pet's neck every 1 to 2 hours.
- Regularly recheck the fit to prevent excessive pressure; follow the instructions in this manual.
- You may need to trim the hair in the area of the contact points. However, never shave the dog's neck; this may lead to a rash or infection.
- Never connect a leash to a collar with contact points. It will cause excessive pressure on the contact points.
- When connecting a leash to a separate collar, do not allow it to put pressure on the collar.
- Wash the dog's neck area and the contact points of the collar weekly with a damp cloth.
- Examine the contact area daily for signs of a rash or a sore.
- If a rash or sore is found, discontinue using this product until the skin has healed.
- If the condition persists beyond 48 hours, see your veterinarian.
- For additional information on bed sores and pressure necrosis, please visit our website.
- This product is only for use with healthy pets. If you're not certain that your pet is in good health, we recommend that you take your pet to a veterinarian before using this product.

How it Works

The Premier Pet™ Rechargeable Bark Collar effectively deters barking when it is worn. It has 15 levels of static correction and begins with low-level corrections. If excessive barking continues, the correction intensity will increase with each successive bark until the barking stops. Once the dog has learned to reduce the barking, the initial warning corrections are reduced. As a built-in safety feature, if your dog barks 15 times or more within a 1 minute 20 second period, the bark collar will automatically shut off for 3 minutes.

What's Included

Fit the Collar

Important: The proper fit and placement of your collar is important for effective operation.

1. Start with the collar turned off and your dog standing comfortably, not sitting.
2. Remove all other collars your dog may be wearing and place the bark collar around his neck. Place the collar on your pet so that the Premier Pet™ logo is right side up and the collar is directly under your dog's chin. Center the contact points underneath your dog's neck, touching the skin. *NOTE: It is sometimes necessary to trim the hair around the contact points to make sure that contact is consistent.*
3. Check the tightness of the collar by inserting one finger between the end of a contact point and your dog's neck. The fit should be snug but not constricting.
4. Allow your dog to wear the collar for several minutes, then recheck the fit. Check the fit again as your dog becomes more comfortable with the collar.

CAUTION

Do not shave the pet's neck as this may increase the risk of skin irritation. The collar should not be worn for more than 12 hours out of every 24-hour period. Leaving the collar on too long could lead to skin irritation.

Charge the Collar

Excessive charging can shorten battery life. Only charge your collar when the batteries are low.

1. Plug in and fully charge the bark collar. The LED on the bark collar will be solid red when charging and will turn off when the bark collar is fully charged.
2. When the bark collar is charged, replace the rubber cover. The mud plug covering the charging port must be in place for the bark collar to be waterproof.

Turn the Collar On/Off

To Turn the Collar On

Press and hold the On/Off button until you hear a beep. The LED will give one quick flash then flash once every 5 seconds (every 3 seconds when the battery is low).

To Turn the Collar Off

Press and hold the On/Off button until the bark collar beeps, and then release. The bark collar turns off.

Quick Tip: When you are not using the bark collar, you will want to turn it off. This will increase the battery life.
