HEDBANZ

BLAST OFF!

CONTENTS
• 2 BLASTOFF HEDBANZ
• 100 CARDS
• 6 SAMPLE
QUESTION CARDS

HEDBANZ

INSTRUCTIONS

It's a head-to-head race to guess 3 cards, but if you take too long, the card on your head will Blast Off! The guesser will ask any question (doesn't have to be a 'yes' or 'no' question!) and the rest of the team will respond with one word or sound. Take too long on any one card and it'll Blast Off from the headband!

Work with your guesser to correctly guess 3 Hedbanz cards before the other team to win the round. Win 3 rounds to win the game!

OBJECT OF THE GAME

Through a series of questions, be the first team to win 3 rounds of play! For extra fun, if you have other versions of Hedbanz, you can add those cards to the mix!

SETUP

- Feed the side of the band with holes through the back of each Hedbanz Blastoff timer. There's a notch on the band to help you align it. Then comfortably secure the headband around your head.
- Split into 2 teams of 2 or more players each.
- Choose one player on each team to be the guesser – give each of them a Blastoff Hedbanz. They'll be going head-to-head against each other in a race! If the teams are uneven, put the youngest player on the team with the most people.
- Shuffle the cards and place them within reach of both guessers.
- Each guesser draws a card and places it in their headband without looking at it, so the word is facing the group. Give each guesser 1 Sample Question card.

READY? LET'S PLAY

On the count of 3, both teams turn the knob on their Blastoff Hedbanz to the right as far as it can go, then both guessers can begin asking questions!

- Guessers can ask any question they wish, including the same question if desired. There's no limit to the number of questions that can be asked.
- The rest of the team may each answer the question with 1 word or sound.
- If the guesser correctly guesses the word on the card, immediately take the card off their headband and place another card into the headband and reset the timer. The guesser or anyone from the team can assist in replacing the card and resetting the timer.
- As soon as the timer has been started again, the guesser can begin guessing the next card.
- If the timer runs out before the card is guessed ... the card will BLAST OFF out of the headband, meaning you can no longer try to guess it! Quickly draw another card from the deck, reset the timer and start guessing!

TO WIN

The guesser will ask any question (doesn't have to be a 'yes' or 'no' question!) and the rest of the team will each respond with one word or sound. Work with your guesser to correctly guess 3 Hedbanz cards before the other team to win the round. Win 3 rounds to win the game!
