WE ARE READY TO HELP

oneisall offers a standard **2-year** warranty. If you have any issues with your oneisall product, please do not hesitate to contact us. Be sure to include your proof of purchase, model number, and any relevant photos or videos in your message to expedite the process. Our oneisall support team is available 7 days a week and will respond to your inquiry within **24 hours**. Thank you for choosing oneisall.

Please note that the oneisall warranty does not apply to used products or purchases made from unauthorized sellers. It's important to be aware that the warranty also does not cover consumable parts such as blades, guards, filters, brushes, and similar items. These parts may require regular replacement or maintenance.

Safety Instructions

1.Read Before Use: Before using the clippers, read all safety and operating instructions.

2.Electrical Safety: Ensure that the voltage indicated on the rating label matches your electrical outlet. Do not immerse the appliance in water or any other liquids to avoid electric shock.

WARNING: Keep the appliance dry.

3.Supervision: This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

4.Regular Checks: Periodically check the clippers for damage. If the appliance or power cord shows any sign of damage, do not use it. Contact the service center for repair or replacement.

5.Regular Maintenance: Disconnect the clippers from the power source before cleaning, changing accessories, or performing any maintenance. Keep the blades clean and well-oiled to avoid overheating and ensure optimal performance. Replace blades as needed.

WARNING : Cutting blades may become hot after prolonged use.

6.Storage: After use, unplug and store the clipper in a dry place, away from pets and children.

7.Handling: Avoid touching the blades directly with your fingers. Always switch off the appliance when not in active use.

8.Use for Intended Purpose: These clippers are designed for trimming pet hair only. Do not use them for any other purpose.

9.Disposal: Dispose of the clipper and its accessories according to local regulations for electronic waste.

 - ※ The product can produce little heat during using or charging, which is normal.
 - ※ Please remove the battery safely and return it to the specified places when the battery runs out. Never discard it casually.

EN-6

Q & A

Q1. Any suggestions before using the clipper?

A1. Firstly, you should wash and dry the pet.

Secondly, if your pet's hair is too long, you should trim your pet's hair with scissors first, comb the hair smoothly, then use clippers to trim your pet.

Thirdly, before and after using the clipper, a little oil should be dripped on the blade for lubrication and maintenance.

Q2. What does the guide comb 3mm, 6mm, 9mm, 12mm mean? How to use it?

A2. The size of the blade and the guide combs means the length of the hair that can be left on your pet after a grooming.

For example, if you use the blade with 1.0(mm) and the 12mm guide comb together, that it will leave 1.0mm + 12mm = 13mm long hair on your pet.

If you use the blade with 1.0 (mm) and don't use a guide comb that the hair will be shortened to 1.0mm only.

Q3. What should I do if the battery cannot be charged or turned on?

A3. The battery life depends on the frequency of use and the time of use. If it is not used for a long time, it is recommended to charge the hair clipper at least once every three months to ensure battery life.
